EXHIBIT E

John Hancock v. Abbott Laboratories**John Hancock's Objections to Abbott's Revised List of Proposed Trial Exhibits****Key**

Code	Objection
AUTH	The proposed exhibit does not sufficiently indicate that it is what it purports to be, and is inadmissible under Fed. R. Evid. 901.
BATES	The proposed exhibit denotes a Bates range that appears to be in error. John Hancock requests that Abbott properly identify the proposed exhibit. Further, John Hancock reserves all objections to these documents.
HEAR	The proposed exhibit is Hearsay or Double Hearsay not within any exception, and is inadmissible under Fed. R. Evid. 802
IRREL	The proposed exhibit is irrelevant under Fed. R. Evid. 401, and thus inadmissible under Fed. R. Evid. 402.
MULTI	The proposed exhibit identifies more than one document. John Hancock requests that Abbott identify these documents with separate exhibit numbers. John Hancock reserves all objections to such documents.
No Objection	John Hancock does not object to the proposed exhibit.
SETTL	The proposed exhibit deals with settlement discussions and is thus inadmissible under Fed. R. Evid. 408.
PLs' "xx"	Abbott's proposed trial exhibit has been proposed as a trial exhibit by John Hancock, and has been objected to by Abbott. John Hancock urges Abbott to withdraw its objection to documents that Abbott now offers as trial exhibits in its own case.
Ex. "xx"	Abbott's proposed trial exhibit has been proposed as a trial exhibit by John Hancock, and has not been objected to by Abbott. The exhibit exists on the parties' list of "Agreed To" exhibits.
UNTIMELY	The proposed exhibit is being submitted by Abbott as part of the expert report of Avram Tucker. The exhibit was not previously included in that expert report, as required under the Scheduling Order in this case, and under Fed. R. Civ. P. 26(a)(2)(B). Hancock therefore objects to the exhibit as untimely.
